Robby Ginepri Wears Kinesio® Tex Tape

Professional tennis player, Robby Ginepri, who is currently ranked #88 in the world was seen in this photo and on T.V. wearing Kinesio® Tex Tape during the 2008 French Open. Ginepri, the last American left in the French Open at the time came up just short of victory over Chilean Fernando Gonzales, currently ranked #25 in the world. The two battled hard, but Gonzales came out victorious to advance to the quarterfinals of the 2008 French Open.

During Ginepri's match versus Gonzales, Ginepri was wearing black Kinesio® Tex Tape. Although we do not know exactly what the Kinesio® Tex Tape was applied for, we always like to see our product being used to assist professional and non-professional athletes during the competition.
